Fenelon Falls.

**SAVE MONEY,
SAVE TIME,
SAVE TROUBLE.**

To the Readers of
The Minden Echo.

In another month or two we shall have closed out our business at Minden. I have done this believing that at Haliburton (being on the line of Railway) we are in a better position to handle the greater share of the Minden trade. You can purchase here and thus save the carriage by the means for which you will have to pay.

Bigger Bargains

THAN EVER

AT

YOUNG'S

QUADRIELE PA
PERSONAL.—Mr. C. Dean, is here visiting. Through a letter received on 7th inst. Mr. David Emily is visiting Mr. Jam.

Snow Plow.—Dave Blair is a jolly fellow, when there is a heavy snow storm he starts out through town with his snow plough and scatters the snow in all directions. In fact, he tore a drift to pieces on Wednesday last in front of our thumpy that we couldn't climb over. Shale, Dave.

CEDAR. We want a lead of good dry cedar and any person that will bring it to us will receive the price in cash, there is no use of calling on those that owe us, because they seem to think they don't have. Remember we want good dry cedar, hanging out of bed at six o'clock in the morning, (degrees below zero), and trying to make a fire with wet pine is played out.

SALE.—The sale of chattels on the premises of Mr. J. J. Sisson, Stanhope, took place on Tuesday last, and was very successfully carried out. No withstanding the severity of the weather there was a good turn out of purchasers and fairly good prices were realized. The sale was conducted by Mr. J. H. Delamere, auctioneer, in his usual energetic manner.

DISTRICT ORANGE LODGE ELECTION.—The Annual meeting of the Minden District Orange Lodge was held in the Town Hall here Tuesday last. The following are the officers: W. D. M. R. Bro. Walter Smith, Chaplain Bro. J. M. Newell, J. Sec. Bro. J. Scott, F. Sec. Bro. J. Bro.

HALIBURTON
What is the difference between the Queen's Hotel and the Black Bear Hotel? One makes wooden cakes and the other gets the money for them.
The Methodist entertain on the 6th inst. with a good show. A large number being present. The singing, recitations, and dialogues were given in good style after which a cake for an election was brought out which was given by a lady of the village. The cake was run for by the Queen's Hotel and the Black Bear Hotel. The latter won by \$4.50. A gentleman was called on to cut the cake, when it was found that the cake was made of wood. That accounts for what we have heard about cakes made at this place being tough.

DIPHTHERIA.
To the Editor of THE MINDEN ECHO.
Sir,—In your last issue I noticed a paragraph stating that one of my children was with diphtheria. If you will kindly send a small space in your paper to

The chief officer gave the following account of the disaster:
"The Towray R. Co."

with a cargo of... until the 13th... heavy gale. On the... the gale increased and... over the vessel... the boats... The storm... did not at that time... of danger in the... When day... the water rose so high... the stoke hole was put out. On the 17th, despite all endeavors, the water rose so high in the stoke hole that the fire was put out. On the night of the 17th the wind and sea increased, everything on deck was smashed and the ladders and deck fittings were washed away. On the morning of the 18th it was apparent that there was no chance to save the ship, although all hands were employed in pumping water, and orders were given to get ready to leave the vessel which still remained. While this was being done, waves were still breaking over the vessel, and some of the crew and passengers were washed overboard, and although some of them were saved, about twenty perished. The remainder of the passengers and crew got into the boat, and the vessel sank at 2 p. m., about fifty miles north-west of north of Santer reef. For three days prior to the sinking of the vessel, we had been unable to get to the fresh water passage door. The boat having become filled with water, and some of the passengers were poisoned. I broke out a corner of one of the... I broke out a corner of one of the... and while we... the water in... the water in... the water in... where we could get an... the... China coast 250 miles away, and for this we set sail. After getting into the boats the wind and the sea moderated somewhat, although the waves occasionally broke over the boats, drenching us to the skin. A Voice From the Farm

You say that my life is a round
The staid farmer said,
That I scarce can wrest from it
My pittance of daily bread?
Well, what you tell me in part
I am seldom an idle man,
But I value the blessing of rest,
Who have much of it, never can.

And surely I have never worked in vain,
From the spring to the golden fall;
The harvest has ever brought waving grain,
Enough and to spare for all.
And when in the evening free from care,
I sit at my farm house door,
My wife and little ones waiting
Oh, what has the millionaire?

My children may never
Their lives may at times
But if in their homes they
They will find these rich
The only land they will
Is the land they
And the pauper
Can tell!

...ever
...the strong right arm
...fearless heart alone
...to a fertile farm.

...nothing beyond my simple wants,
...a little for cloudy days;
...no grim spectre my threshold haunts,
...Such as silver and gold might raise,
...Around me are eyes that with sparkling mirth
...Or with placid contentment shine—
...And no wealth-clogged lord upon all the earth
...Has a lot more blessed than mine.

To-morrow.
Bind up a wreath and give it me
Before this full day closes;
And in the garden let them be
The thorns as well as roses;
Weave violets in and greenest bays,
Weave willow for my sorrow,
Sad flowers for the yesterday,
White lilies for to-morrow.

White lilies, for they tell of peace
Beyond the gates of even;
Where whispers of the soul's release
Seem mystic hints of Heaven;
And yesterday, but that has gone,
And so I needs must borrow
A hope of that swift coming dawn,
The promise of to-morrow.

Forever more to-morrow lends
Bright visions of completeness;
True lovers, and the steadfast friends
With faces full of sweetness;
But backward all seems dim and gray,
And vaguely touched with sorrow;
I care not for your yesterday
If I may have to-morrow.

The past is past—ah! dead indeed,
I weep not for its going;
Its phantoms weird no more I heed
Than west winds wildly blowing;
Press outward, aye, and upward heart,
While I my gladness borrow,
For hope and I shall never part
While I can have to-morrow.

—Ernest McGaffney.

Mothers-in-Law as They Are.
I'm not myself—and I think, I think,
I was smart as the best of 'em then!
I knowed no blame much that I'm glad I've for-
got.

And can't I collect it again!
But as smart as I was—and I'm certain of that—
I was never so smart that folks saw
Any brains sproutin' up through the top of my
hat.

When I laughed at the mother-in-law!
The mother-in-law was a woman—but we
do or do not—

ACCORDING to one authority one pound of
bananas contains more nutriment than
three pounds of meal or as many pounds of
potatoes, while as a food it is in every
sense superior to the heated bread.
Although it grows spontaneously through-
out the tropics, when cultivated its yield is
prodigious, for an acre of ground planted
with bananas will return as much food
material as three acres of wheat or
of potatoes. It is
...stood that bananas—
...ed—are very appetiz-

EUSTON SQUARE, in London, England, is
lighted by a new light which is believed to
possess many advantages. Ordinary coal
gas, mixed in about the proportion of one
to eight of common air, is supplied under the
usual gas-service pressure to burners
over which are placed caps of platinum
wire gauze. The mixture, when lighted,
burns without flame around the cap, which
is raised to a brilliant white heat by the
combustion. The light is perfectly steady,
there being no flame, and is not affected
by wind or rain. More than twice as much
light, it is said, is obtained, with a
consumption of gas, as by the old
twenty burners replace fifty.

devoted to jo-
...stic work she determined
to continue it, contrary to the advice of all
her friends, who wished her to take the
\$1,000 allowed her by law and abandon the
paper. The business manager, Mr. Nichol-
son, alone counselled her to go on, and stood
by her with the paper not only put it on
a paying basis, but wiped out the \$85,000
debt. She ... married Mr. Nichol-
son, who became a widower shortly after
her husband's death. She is a fragile little
woman.

...the doctor
...button,
...said the man.
...No, doctor, a bean,
...said the man.
...You lie, Sigismund; it's a bean," said
the wife.

The doctor quelled the riot by asking the
parents to place the child in a chair, and
then laid out an array of about seventeen
instruments, only one of which he had any
use for. Selecting a bright delicate hook
with a long shank, he advanced toward the
patient.
"What's that? What's that?" broke
in the father.
"I never had such a thing
before, and I won't let such
a thing into the house of
the wife."

EITHER BEAN OR BUTTON.

The Freiheit 1 My Discrepancy, the
Doctor Got the Case.

The question whether it was a bean or a
button was the subject of a conjugal polemics
in which Sigismund Freiheit and his spouse
were seriously involved last Monday. While
Dr. Johnson, the assistant secretary of the
health board, was sitting in the private
office with a brown ... heard
an energetic discussion ... between
two persons on the stairway outside.
Presently the door opened and a man and
his wife, both approaching middle age,
came in. The man had a child in his
arm, and the woman was looking at the
doctor with a distressed expression.

WHICH DO YOU BELIEVE?

Both Sides of an Absorbing Controversy
Clearly Stated.

According to "Scribner's Statistical
Atlas of the Census of 1880," there was
not a single death from kidney disease in
the entire United States from 1870 to 1880.
But can this be possible? If we are to
believe the articles of one of our best
advertisers, kidney disease, and diseases
arising from kidney derangements, is
actually responsible for the majority of
deaths.

...brought in an annual income of about
...\$5,000. She took a trip to Highland
...Springs, and there a lively widow per-
...suaded her that she ought to become a
...widow herself in order to enjoy the social
...freedom that an unmarried woman can
...never hope to gain. Full of the project,
...she returned to Oakland and formed the
...acquaintance of Capt. and Mrs. K. M. Appar.
...To them, she confided her longing for
...social emancipation. She declared she was
...bound to become a widow, and thought if
...she could marry some man who was on his
...death-bed it would be about the right thing.
...Appar agreed that if she was determined
...to marry, and for the purpose stated, it
...would be advisable to have the thing settled
...with as little publicity as possible. He
...accordingly introduced this peculiar young
...woman to Dr. Dupuy. Dr. Dupuy de-
...clared that he knew of just the man to suit
...Miss Brown's wish in the person of a poor
...printer named Frank McKee, who had a
...beautiful case of consumption, and who
...could not possibly live more than a month.
...Miss Brown thought that she had found
...just the man she wanted, and agree-

THE famous Children's Christmas Club,
of Washington, of which Miss Nellie A.
Arthur was once President, supplied a
Christmas dinner to be given to the
children of the poor. The members wear
badges of white ribbon with a diminutive
sleigh-bell attached to each. The club is
one which could well be imitated in other
cities for its useful and charitable pur-
poses. It may be noted, says the Boston
Journal, that the Christmas club organized
in ... city has grown from its
first ... preparing a Christmas tree
and dinner to a charitable organization
covering the wide field of visiting and
relieving the poor all the year round.

EUSTON SQUARE, in London, England, is
lighted by a new light which is believed to
possess many advantages. Ordinary coal
gas, mixed in about the proportion of one
to eight of common air, is supplied under the
usual gas-service pressure to burners
over which are placed caps of platinum
wire gauze. The mixture, when lighted,
burns without flame around the cap, which
is raised to a brilliant white heat by the
combustion. The light is perfectly steady,
there being no flame, and is not affected
by wind or rain. More than twice as much
light, it is said, is obtained, with a
consumption of gas, as by the old
twenty burners replace fifty.

...the doctor
...button,
...said the man.
...No, doctor, a bean,
...said the man.
...You lie, Sigismund; it's a bean," said
the wife.

The doctor quelled the riot by asking the
parents to place the child in a chair, and
then laid out an array of about seventeen
instruments, only one of which he had any
use for. Selecting a bright delicate hook
with a long shank, he advanced toward the
patient.
"What's that? What's that?" broke
in the father.
"I never had such a thing
before, and I won't let such
a thing into the house of
the wife."

BY MRS. M. L. RAYNE.

"Hannah," said Farmer Hub, as he bled into the farmhouse kitchen, "be you expectin' a letter?"

"No," answered his wife promptly.

"Who's writ'?"

"I dunno, unless it's that high-flyin' sister of yours, Juliett. What's-her-name. Like enuff she is tired of livin' starchy up in the city—'tain't enny place for real human folks ennyway—and so she's comin' here to make us a visit."

"No," said Mrs. Hall, haunting him the letter, "let's make it out it's just the other way. Juliette wants us to go and visit her. She says she'll stand the expense and is just suffering for somebody to make over. Now what does she mean?"

"Golly me go-a-visitin' waa' they eat
breakfast in the middle of the day an' wear
their Sunday close the hull week. I rathern
guess not. But, mother, if yo' want ter go
thet's another thing. You kin heve the
money the old mare fetched—you nigh' about
raised Bet ennyway. I'll give 'er."

"Poor things," said her husband; "it must be dreadful to have to dress to death all the time. Where's the ink-horn? I'm goin' to write to the children that their ma's goin' a visitin'."

After manifold preparations, which included a care for every living thing in the house and out of it, Mrs. Hull was ready to go and visit her stylish sister, the rich city widow. She cooked enough to last two months, had cleaned house and mended

everything commendable. Dan'l was to keep
with the hired man, and they both
lapped lips over the mince and
the doughnuts and loaf cake

I met

on the New York, Pennsylvania, consisting of two sleeping coaches, collided with a passenger train consisting of two engines and three miles west of this city on the 1st inst. this morning. Five persons were killed outright, among whom was a passenger. Thirteen others were wounded, none of them fatally. Following are the names of the killed:—Wm. George, engineer, and fireman Humes, of the leading freight engine; J. R. Swan and Arthur Irwin, engineer and fireman of the Chicago express; William H. Stephenson, of Toledo passenger. Both trains presented a terrible scene of destruction.

examination in the
 Yarmouth ship, Vancouver
 brutality to sailors, began
 this morning. Five separate
 have been laid against the pris-
 which are of a very serious char-
 are being taken separately. The
 of Henry Hoare, twenty years of
 London, was before the court during the fore-
 noon. This complaint sets forth a long list
 of cruelties that were practised on Hoare
 during the passage by Frank Kinney, boat-
 swain, and Robert Davis, second mate. The
 latter are charged with an aggravated as-
 sault upon him by beating him with ropes
 and with a belaying pin, by jumping on him
 and kicking him in all parts of the body
 particularly on the head and face, knocking
 two teeth out and breaking another, and by
 compelling the other men of the crew to drag
 him around the deck with steel pincers, by
 covering him with tar, by compelling him
 to go about the deck naked in extremely cold
 weather and dashing cold water on him, and
 by compelling him to remain aloft without
 food for upwards of six hours and otherwise
 ill-treating him. The public feeling against
 the officers of the ship runs strong.

OTTAWA, Jan. 6.—The Canadian Pacific officials are reticent about the accident which took place near Schreiber on Wednesday but from train hands who arrived here today some particulars have been obtained. The point where the accident occurred is known as Horseshoe curve, near Red Lucker Cove and between the stations of Penland and Stewart. Two heavy freight trains, one eastbound and the other west, collided on a trestle work bridge on the curve. The trestle work gave into the ravine below, a distance of ninety feet. The engine drivers of both trains were hurled down with the cars in a moment and instantly killed. The conductors who were in the vans at the rear end of the trains were said to have escaped, as well as one brakeman and one car shaver.

COUNTY OF HALIBURTON. BY Virtue of a Warrant issued by the Warden of the Provisional County of Haliburton, and authenticated by the seal of the said Provisional County, on the *Thirteenth day of December, 1887*, and to me directed for the collection of the arrears of taxes due for three years or over upon the lands hereinafter mentioned, and designated, being in the Provisional County of Haliburton, I do hereby give notice that unless the said taxes together with all costs and charges, be sooner paid, I shall, on **TUESDAY, THE TWENTIETH DAY OF MARCH, 1888**, at the hour of one o'clock in the afternoon, at the Town Hall, Minden, in the said Provisional County, proceed to sell by Public Auction the said lands, or so much thereof as may be sufficient to discharge such arrears, and costs and charges incurred.

ED BY A COWHIDING.

lege Graduate Publicly Whipped by a Girl whom he Traded.

A Seneca Falls, N. Y., despatch says: Over a month the young people of Lodi have prepared for a grand Christmas celebration in the public hall. Marvin Phillips, a young school teacher in the place, a recent Harvard graduate and the son of Rev. W. P. Phillips, of Poughkeepsie, was chosen to conduct the exercises. On Saturday the young ladies of Lodi chose Miss Jennie Baxter, a prominent society young lady and daughter of the oldest physician in the place, to assist at the exercises. Phillips declined her assistance, and told several people she did not have a correct moral character. Miss Baxter heard of his words, but kept silent. At the Christmas tree exercises last night Phillips was the sole conductor. The hall was crowded and the scene was a merry one.

Phillips arose near the door to address the students, when Miss Baxter, a few feet away, drew a whip from her cloak, beat the head and shoulders of the young man, and stumbled forward. Miss Baxter hit more severely than the men held her back and her cousin, Miss Lulu Young, snatched the whip from her hand only to beat Phillips the more. Phillips was led away by his friends. There was great excitement in the hall. Women and children screamed and everybody stood up. The Christmas tree was nearly overturned in the excitement. Phillips, who could not see because of the injury to his eyes, was led out to his room, where a physician applied liniment to the cuts and lacerations about his face and neck. Misses Baxter and Young were surrounded by the young women and left the hall in company.

THE BERNHARDT WEDDING.

All Paris Present to See the Divine Sarah's Son Marry the Princess.

A Paris cable says: Mrs. Bernhardt constantly contrives to be the centre of a sensation, and to-day the slender, graceful lady, elegantly dressed, attracted all attention in the Church of St. Maurice to the marriage of her son Maurice to Princess T...

AN IRISH MAID OF SARAGOSSA.

Scenes and Incidents in the Great Struggle Against Landlordism.

A LONDON JOURNALIST'S DISCOVERIES.

In walking over the battlefield of Bodyke the other day, and seeing its results everywhere in the form of breaches newly rebuilt, roofs propped up and fragments of broken furniture, I entered one house which was known as "the Castle," from the desperate defence it had made against the invading enemy. To my surprise I found among its inmates a stout young woman, with a comely, good-humored face, who was dressed in a new gown of plain blue cloth. I inquired how she got it, and was told that she was the girl who had animated the breach in the presence of her father's lawyer.

which she produced, which it had been the victim to say, these hardened allusion to not water invariably produces a broad grin. I asked this girl if it was true that she had thrown hot water over the bailiffs. She replied, "Shure, I never threw a drop of water at all; it was the boiling meal." The priest suggested that, as she was bound over to keep the peace for twelve months, it was a fine chance for some young fellow to marry her, as he would be safe of a quiet life for the first nine months. She blushed up to the roots of her hair and disclaimed any matrimonial thoughts. But any man who changed into a smile at her face when I redoubtable...

"Brose was the ready reply. "And for dinner?" "Brose, of course." "And for supper?" "Brose." "And do you ever tire of brose?" he asked, kindly. "Governor hear the man," exclaimed one of the ploughmen. "Does he think we..."

THE COMMON HEADACHE.

What Causes Them and the Only Way to Prevent Their Recurrence.

Probably one of the most common headaches, if not the most common, is that called nervous. The class of people who are most subject to it are certainly not your out-door workers. If ever my friend and gardener had had a headache, it would have been one of this description. Nor does Darby, the ploughman, nor Jerry, the busman, nor Greatfoot...

headache, nor any one else who takes plenty of e loor live. But poor Mattie, who is the open in a stuffy draper's shop, away her lonesome attic, bending over her white seam—stitch, stitch, stitch—till far into the night, and thousands of others of the in-door working class, are martyrs to form of headache. Are they alone in the misery? No; for my Lady Bonhomme, who comes to have her ball dress fitted on, has often a fellow-feeling with Jeannie and Mattie. Her, however, we cannot afford to pity so much, because she has the power to change her modus vivendi whenever she chooses.

What are the symptoms of this complaint that makes your head aches? You will almost know it is coming from a dull, perhaps sleepy feeling. You have to heart and little hope, and you are restless at night. Still more restless, the night comes on in full force, and then, perhaps, however much you may wish to, scarcely can you sleep at all.

"How my poor head does ache!" This you will say often enough; sadly to yourself, and hopelessly to those near you, from whom you expect no sympathy to bear, none. And yet the pain is bad, only one part of the head.

The worst of this form of headache lies in the fact that it is periodic, arising from unnatural habits of periodicity is Overwork indoors.

THE WONDERFUL KOLA NUT.

It is Said to be Capable of Performing a Great Many Remarkable Things.

Planters in tropical climes are recommended to cultivate the kola tree, the nut of which seems to possess some marvellous qualities. If the prophecies regarding the beneficial service of certain preparations of it are realized, an unspeakable boon will be conferred on millions of the human race. For many years it has been extensively used as an excellent beverage and sacred symbol in the interior of Africa, but now its properties have every reason to more extensively utilized. There is no doubt from what is already known has the extraordinary property of acting the influence of alcohol, stimulant in wasting diseases, a powerful tonic in cases of deep-seated injuries on the digestive organs, of fatigue, and of exciting to arduous with the least injury to the system.

It is found in the series of Africa, and that soldiers along the coast were the first white men who became aware of their peculiar property. They found, for instance, that the chewing of these nuts prevented a drunken headache. Not only so, but some who have used the nut paste as a "pick-me-up" assailed, while removing the nausea, it gives a quite a "skunner" at the smell of the nut and removes the irritating desire for a "morning" to keep the stomach hearty. If the paste be mixed with cocoa paste, which it resembles closely, it produces a much finer and more nutritive chocolate. It has been shown by repeated experiments that the kola nut is a powerful stimulant of the cocoa paste is ten times reduced by an equal quantity of cocoa chocolate. So that with a single ordinary cocoa chocolate, one can undergo a day's work without any sense of weariness. Though it may not directly feed the muscular system, it has the property of preventing the rapid waste of the tissues. So much have the manufacturers of chocolate, both in this country and abroad, become alive to the excellent properties of the new paste that they are making arrangements to procure it for mixing purposes as soon as its price becomes reasonable. The British Government, too, has gone the length of making experiments upon the paste in a pure state, so as to ascertain the saving which would be made in the transit of provisions in time of war by giving this beverage to the army. It is of great service for purifying the foul air which is so prevalent in hot climates; it is the preventive of many diseases, and Europeans living in beer and...

THE MINOR MISERY OF

Some of the Hundreds who Sleep in London's Streets.

When they told me at the railway station the last train to the suburb where I lived had gone, I determined, mindful of the pleasures of night wandering in Paris, to seek shelter in no hotel, but to see what sights the streets of the sleeping city might afford. It lay in the gutter of that narrow street there, where any passing cab or yonder fruit-laden dray might, without blame to the driver, have crushed its life out. It was a child, so light in my hand as I held it for a moment I wondered it was a living thing. Had it been a living thing...

traffic, save the walking lepers of the street, insolent grown since a piqued police curtails not their so repulsive aggressions. "Our new instructions bid us leave them alone," said a constable to me; "and very glad we are to be relieved of the trouble of chivving them about." There is that danger in applying the rebuke of Talleyrand—that he to whom you forbid over-zeal will sink into inaction.

In every doorway of the side streets of the thoroughfare single misery has taken refuge. Misery in company is here in Trafalgar square. A curious sight, indeed, the "finest sight," as I then saw it. It was all dark, with a couchant mob of homeless vagabonds taking their rest on the stone. Not all in rags there, much black-coated misery was here. Such was he who presently tells me he was a city clerk, and who, to judge from his tongue and manner, may indeed have once done clerical work. His pillow is a Daily Telegraph. This paper bedding affords a curious study. Most have such furniture to their resting place, and as I walk round I take notice what papers are most in use. The Echo pillows most of those who are in rags. Black-coated misery takes its bed-fitting from the Conservative press. One is a starving and homeless outcast, but one respects the institutions of one's country. For a hundred sleepers, men and women promiscuously side by side, I count in the shadows of the finest hotels in the world. I high up on his column stands, over all, a man who spoke once of England and her expectation. That 400 men and women and their children should thus be flung on the pavement—starving, abandoned in the very heart and centre of the luxury of the world—who has failed in his duty? Far off gleams the light high up that tells us that the people of England are even being cared for. He is a man who has been...

LADIES' COLUMN.

A Fat Woman's Complaint.

"There is a fortune for anybody who will start a 'Fat Woman's Journal,'" said a woman who weighed more than 200 pounds, "or if you want to be more euphemistic and euphonious, a fashion magazine, and christen it 'A la Jolie Embonpointe.'" In this there shouldn't be a fashion or a fashion plate that did not pertain to a woman weighing at least 175 pounds—and upward, as they say in the cheap stores. At present you can't find a fashion plate that does not represent a slender, long-waisted woman. For this...

sympa even think is designed—owns, wraps, bonnets. It is impossible to find anything intended for large women. Apparently nobody gives us any consideration, and we clothe ourselves, as it were, by faith. It is absurd," continued the lady, "for the fact is well-established that American women have lost the reproach of scrawnyness. Go where you will, at least among the leisure classes, and you will find the large proportion of women broad shouldered, well-developed and a generous overflow of figure. And we are worth considering. There is a fortune in aviridupois for whoever is far enough sighted to perceive it. Send out the prospectus 'A la Jolie Embonpointe' or the 'Fat Woman's Journal' and see how quickly we will rally to its support from every part of the land." —New York Sun.

Cost of "Coming Out" Dress. Next to the bridal dress of a young girl, her "coming out" costume is the crucial test of task and income. Miss Morris' "sweet simplicity" of costume was an example. The foundation was a low-necked, no sleeved-slip of what one would call rose white. If yellow white be ivory, or cream, then pinkish white is rose white. The material was corded silk, heavy and lustrous. About the walking-length skirt was a box-plaited row of Valenciennes four inches deep at \$5 a yard. In each plait of the lace hung pendant an artificial half-blown blush rose. Up one side like a panel went row after row of lace and buds. Draped over the silk was a mass of etheric silk gauze, with satin stripes in pure white. Opposite the panel, on the right side, a big pocket arrangement made of folds interlaced like basket and springing out of the top a splendid cluster of blush roses, blown and buds. The girlish chest debutant admitted of the upper half, corsage being made of overlapping rows of Valenciennes and intermingling buds, and a hip-corset of satin, laced behind, showing the slender waist. There were certainly fifty yards of lace on the dress, and 500 roses. The material cost \$100 for dress was \$100 for roses. The roses...

section, which he will arrange during the coming summer. There is also some talk of a stove and latrine factory being started here, as well as another store. Minden is going to boom, in fact she is booming.

FAREWELL SUPPER.—A pleasant evening was spent in the dining-room of the Dominion Hotel on Friday evening last when a farewell supper was given by the citizens of Minden in honor of J. Edgar Croly, Esq., M. A., who was about to leave this village. About twenty gentlemen gathered around the table, Dr. Curry was appointed chairman, which position he filled in his usual humorous style. Speeches were made by the chairman, the Warden of the county, Messrs. J. H. Delamere, M. Brown, James Mortimer, R. C. Garratt, E. C. Young, R. W. Grier and others, who expressed their sorrow at the intended departure of the guest. Mr. Croly, in a few well-chosen remarks thanked those present for their kindness to him during his stay in Minden. The gathering dispersed about eleven o'clock, after singing the National Anthem. Mr. Croly left Minden on Thursday last for Stratford where, we understand, he has secured the position of teacher of the High School in that place.

A meeting of the citizens interested in the welfare of the back country took place in Mr. J. H. Delamere's office, on Saturday evening last, to consider the advisability of applying to the Ontario Legislature for a renewal of the charter of the Victoria Extension Railway to construct a line commencing at some point on the Victoria

innumerable moles and holes. In the districts of Ching-Chow and Ching-Chow no less than three thousand large holes are stated to have been dug in the earth in the last few months, and the people had time to see the breach occurred in the night. An extent of country much larger in the whole principality of Wales, and much more thickly populated, is now

A RAGING RIVER.—The river has either drowned or have fled. The Port of the whole population of Ireland, which inhabitants with in an area of 65,000 square miles, and the waters of the river cover between eight and ten thousand square miles. The accounts published in the Gazette reveal the horrible sufferings undergone by the survivors, who are

PERISHING OF FAMINE.—In hundreds of instances when the waters rushed into the cities, sweeping walls, houses and everything down before them, the people refused to stir, and met their deaths with that wonderful indifference which characterizes the Chinese. According to the best authorities the loss of life will be numbered by hundreds of thousands, while there are millions of starving people who are now depending for subsistence upon the charity of others. The Emperor has already contributed 100,000 taels besides ordering two millions taken out of the Imperial treasury towards the relief of the sufferers.

PERILS OF THE SEA.

SAN FRANCISCO, Jan. 9.—The steamship Rio Janeiro, from China and Japan, brings the particulars of the wreck of the British steamer Vortigern, with the loss of twenty lives in a typhoon in the China Sea. The survivors reached Hong Kong on December

Railway company has made a Pacific branch, which was opened on Thursday. A few days ago the company's officials notified the Customs Department here that their first freight to cross the bridge would consist of five trains of one hundred cars, laden with Minneapolis flour destined for Eastern markets. The department consequently took prompt action to place additional customs office at the bridge on Friday, and has made such provision as is necessary to facilitate the rapid transportation of the flour to the point of destination. This very large shipment over the new line distinctly marks a new era in the carrying trade of Canada. This trade will doubtless develop to an enormous extent, as the new route through Northern Michigan, across the "Soo" bridge and via the Canadian Pacific to the Atlantic is by long odds the shortest possible route from the American Northwest. The C. P. R. officials here anticipate that the through shipment of flour by the new route will probably be 40,000 cars a year or 130 a day. Ottawa, however, will not be greatly affected, as the major portion of freight will pass through Smith's Falls, Manitoba and other western business will, however, come this way as heretofore.

THE C. P. R. COLLISION.

OTTAWA, Jan. 9.—The inquest on the bodies of the victims of the C. P. R. collision was held at Schreiber on Friday. The jury brought in a verdict "That Conductor Cochran, his engineer and operator Lawson are responsible for the deaths of the two men." The three men were immediately taken into custody and conveyed to Port Arthur, where they are now lodged in jail. No blame is attached to the despatcher as had his orders been carried out the disaster would never have happened.

Traffic was resumed yesterday, the trestle having been repaired and tested thoroughly before allowing trains to pass over it. One engine and eighteen cars of grain went down and are a total loss.

the bible says it is not alone."

"Then, why don't Lincoln Journal."

It Was the Number He Thought Of.
Brown (with a sigh)—That Robinson is lucky dog. He has been married eight years and has got two as handsome children as I ever saw.

Smith—You ought not to envy Robinson, Brown. Your children are as fine as

Brown (with another sigh)—Ah, yes; but there are seven of 'em.

Something Appropriate.
"I'm in search of a useful present for a literary gentleman," said a prim young lady entering a book-store.

"In what branch of literature is he interested?"

"He's a paragrapher on a religious paper."

"In that case," returned the bookseller, "I would suggest an almanac."—Judge.

Not a Parallel Case.
The minister was dining with the family, and he said to Bobby, with an amused smile:

"I'm afraid, Bobby, that you haven't the patience of Job."

"No, sir," responded Bobby, who was hungry, "but Job wasn't always helped last."

Another Great Living Curiosity.

"What is your specialty, my friend?" inquired the visitor of a dime museum freak.

"Phenomenal intelligence."

"In what direction does it lie?"

"I'm the man who always 'shuts the door.'"

A young German officer, rather new to his work and drilling a squad of raw recruits, lifted the right leg of his neighbor, by mistake raised. One of the soldiers joined in the laugh, so that it got to the right leg of his neighbor. "What a jackanapes has lifted both legs?" exclaimed the officer.—Fliegende Blätter.

The old brick church at Smithfield, Va., built in 1682, is still in use for divine worship. It has recently been repaired and gives evidence of lasting a century or two longer.

says: A Jew ends with, "So help me, Jehovah." The Scotchman says, "I swear by Almighty God as I shall answer to God at the great day of judgment." A Mohammedan is sworn on the Koran; a Chinese witness is sworn by kneeling and breaking a china saucer against the witness box; the Quaker simply says he will tell the truth because he believes the command to be truthful is divine. The essential thing, however, is to believe some binding authority from his belief in a God or in a future state.

COL. GEORGE P. BISSELL, of Hartford, Conn., spent last summer in Japan. The most remarkable feature of that country, he says, lies in the fact that its language contains no profane or blasphemous words. "I can readily understand," he remarks, "why the practice of 'hari-kari' is so common in Japan. When a man is abused or loses his collar button and is mad all the way through, so mad that his very soul boils within him, if at such time he is the victim of a language which will not let him vent his rage even in 'darn it' or 'by thunder,' why then I can readily see how suicide might be a soothing relief."

The chances of war in Europe may alter the plans of Madame Modjeska and her husband relative to a holiday in their Polish home. "Should the war come on," said the actress a few days ago, "the greater part of the fighting would be in our immediate neighborhood—where our home is, you see—and that would not be pleasant. Our residence is in Cracow, and Cracow is situated where the Russian, German and Austrian frontiers meet. Our residence is in the very midst of the fortifications. So, you see, we would be in trouble if we went there." Her countrymen like the Austrians much better than the Russians, she thinks, and for cause.

A MEMORIAL cairn has been raised at Aberfeld, Scotland, to the deeds of the gallant "Forty-Two," or "Black Watch," Highland regiment. The north panel bears the names of the engagements in which the corps has borne part as follows: Fontenoy, Prestonpans, Fort Sandberg, Ticonderoga, Martinique, Guadaloupe, Havannah, Busby Run, Brooklyn, Fort Washington, Charles-town, Aboukir, Alexandria, Egypt 1801, Corunna, Busaco, Fuentes d'Aonor, Ciudad

in from transmitted also on the end. The current is conducted through tubes on the mercury contained in glass tubes on the pilot truck. If, therefore, the truck comes into collision the tubes are broken and the contact consequently destroyed. The interrupter of the current instantly and automatically applies the brakes on the following train. It is claimed that the inventor that two expresses, fitted with his system, might with impunity be set on full tilt at each other. The collision of their pilot trucks would arrest the progress of both trains before they could meet. The element of human fallibility is accordingly entirely eliminated and drivers may dash through a whole series of danger signals without risk, being automatically arrested at the moment they reach the spot that is really dangerous.

A WASHINGTON correspondent writes: Everybody knows the poem beginning, "Twas the night before Christmas when all through the house," but very few know anything about its author or his family. The poem is brought to mind by the fact that Mrs. James H. Young, who died recently in Washington, was the widow of the gentleman who wrote the familiar lines. Mr. Young was born in Laurel, a little town in Maryland, about twenty miles from this city, and was first a doctor and then an artist. Finally he entered the Episcopal church and became a clergyman. He died in Washington some years ago. When his widow died recently she left all her husband's manuscripts to Dr. Noble Young, of this city, her brother-in-law, and they are being examined with the view of seeing what can be done with them. There are some unpublished poems among the papers, but none of them are likely to be as famous as the story of Santa Claus.

Mrs. ELIZA J. NICHOLSON is the only woman in this country, probably the only woman in the world, who is proprietor and editor-in-chief of a daily newspaper. Mrs. Nicholson was the widow of Col. Holbrook, editor and proprietor of the New Orleans Picayune, who, at the time of his death, left that paper with a debt of \$85,000. His wife had done regular editorial work on the paper during his lifetime, and as she was

you in exchange. How pleasant it was to be home! God bless you! YOUR HUSBAND.

Fancy and Realism.

Little Nell—Mamma, I wish you'd let me read a novel.

Mamma—Don't mention such a thing.

"But novels tell things just as they are in life, don't they?"

"Yes. Now ask no more questions."

"Susie Minx has got such a lovely novel, and—"

"What? Did you read any of it?"

"Only the last line. It said: 'And so they got married and were happy ever after.'"

"Oh! that isn't a novel, dear; it's a fairy story."

How Glad.

Mr. Smith (with a sigh of relief) holding it aloft—Thank Heaven! the long agony is over! This asking for money every day or two—these whispered consultations—these mysterious looks—this running down town every day—this restraint in my presence has come to an end at last. Christmas and Santa Claus are here, and I am the proud recipient of—a pen-wiper!

The Petaluma (Cal.) Courier tells of a curious fight between an eagle and a coyote. The prize was a large hare, still alive, which had just been caught. The eagle would flap his wings and try to rise from the ground with his prey, but the coyote, which had hold of the other end, would pull him back every time. Then they would have a regular tussle and the feathers and fur would fly. There is no telling how the fight would have ended had not a pistol bullet frightened them both off.

The latest device of the London publican to aid his thirsty customers to drink wisely and well has just been exposed by the excise authorities. The beer is not diluted with water—that was a little too dangerous; but a little engine was found in connection with the beer pump by which water could be run into the pewter pots along with the beer. In all such cases the full penalty of £50 has been imposed.

of 6 years, while school, observing his little more mended places than he admired, turned quickly to his mother and asked:

"Ma, is pa rich?"

"Yes, very rich, Johnnie; he is worth two millions and a-half."

"What in, ma?"

"Oh, he values you at one million, me at one million and baby at half a million."

Johnnie, after thinking a moment, said: "Ma, tell pa to sell the baby and buy us some clothes!"

Better Late Than Never.

Mamma—Harry, you have taken a cake. Always ask mamma when you want a cake.

"Please, mamma," said the rogue meekly, pointing down his throat, "may I have dis one?"

At His Fingers' Ends.

"I suppose," said a quack, while feeling the pulse of his patient, "that you think me a humbug?" "Sir," replied the sick man, "I perceive that you can discover a man's thoughts by your touch."

A countryman who visited a New York theatre the other evening and went out between the acts, became greatly troubled on his return because he couldn't find his wife. He had lost his seat checks and didn't know what to do. Finally a sympathetic usher took pity on him and went through the house asking each lady he came to if she had lost a husband, until he discovered the rural gentleman's bride.

In one of the Sabbath schools in the "lang tonn" of Kirkcaldy the other Sabbath, one of the teachers had occasion to refer to the posture at table the Jews assumed when partaking of food. He remarked that they reclined on couches instead of sitting upright as people in this country do; and concluded by asking the children what they thought of that? One little fellow promptly replied: "I think naething o't a'—I can lie on my belly and sup my parritch!"

A little Sunday-school girl, who was learning about the story of the fiery furnace, was telling her mother about it. "And, mamma," she said, "that naughty king heated an oven just as hot as he could get it, put three good men in, and they wouldn't cook a bit!"

hotel, I am prepared to offer first-class ac
commodation to all who may favor me with
a call. My bar is supplied with the choi
cest temperance drinks and the purest
brands of cigars. First-class stabling and
attentive hostler.

JOSEPH BOWIE,
PROPRIETOR.

Kinmount, April 20th, 1887.

BLACK BEAR HOTEL,

HALIBURTON, ONT.
ROBT. MCKELVEY: CHAS. AUSTIN.

Having leased the premises formerly
known as the Dominion Hotel, we have spar
ed no expense in refitting and furnishing the
house, making it one of the best hotels in the
north country. Travellers stopping at this
house will receive every accommodation ne
cessary for comfort. The dining room
under the supervision of Mrs. Austin is equal
to that of a first-class city hotel. The bar is
supplied with choice liquors and cigars. S.
Sportsmen will be supplied with dogs,
canoes and help. We solicit a share of the
public patronage.

MCKELVEY & AUSTIN.

DOMINION HOTEL,

MINDEN, ONTARIO.
The proprietor of this well-known hotel
desires to inform his friends and acquaintances
and the public that since he has rented
this house he has made it both internally and
externally suitable to those who may
favor him with a call. All the best barrooms,
large and commodious good store
houses. A well kept tabling
had at all hours. The bar. Meals to be
with wines, liquors, ales, and well supplied
with quality. JAMES MORTIMER

ve spent hundreds of dollars on her,"
aimed her sister, as she looked on, "and
his is your gratitude."
"You've made a chromoe of her," persis-
ted Don'l: "look at that ha'ar."
"It's a pompadour," sobbed Hannah.
"It looks wuss than a barn door; an' look
at her cheeks!"
"Bloom of youth—one dollar a bottle,"
grumbled Juliette: "she's made over."
"Hannah!" exclaimed her husband se-
verely, "I'm ashamed of you!"
"So be I," sobbed his wife, "but if you
live in the city you must do as city folks
does."
"Whar's yep new alpaey that you
thought good enough for the Presdynit's
wife?"
"I'm one clusot upstairs."
"Get inter it, and wash the yaller out-
yer gray ha'ar, an' the red offen yoir cheeks
an' kin home! O Lord, kin you ever show
yer face at no conference meetin' agin?"
"Don't's a crank," said Juliette to her
weeping sister upstairs as she tried to sothe
her.
"No, he ain't! and I wus a fool to think
I could be made over! Sakes alive! how
glad I am to get in my shoes again."
When Hannah entered the parlor again
she was clothed and in her right mind. Her
husband beamed upon her.
"God! he exclaimed, I have got her back!
It is the old gal herself this time, as natural
as life and es purty es a picture! Its the
childrens mother. Hurry up now, an' doant
git left. I shant take a spec of comfort till
I get you safe dun hup agin on the old farm
in Injianny!"
